

CHAMOD DULANJANA

FULL-STACK DEVELOPER

Nugegoda | +94 773810577 | chamodperera128@gmail.com | [Portfolio](#) | [Github](#) | [LinkedIn](#)

SUMMARY

I'm a full-stack developer with experience in building scalable applications using modern technologies. Proficient in frontend and backend development, with expertise in frameworks like Springboot, Nest.js, React, ReactNative, NextJS and Angular. Strong problem-solving skills and a passion for creating efficient, user-friendly solutions.

PROJECTS

Learning Management System (LMS) – HCode Solutions

Technologies Used: Spring Boot, Angular, TypeScript, Tailwind CSS

Developed and maintained both the frontend and backend of the Learning Management System (LMS), ensuring seamless integration between services. Implemented key backend functionalities, including university, batch, student, and lecturer management, lecture scheduling, QR code-based student attendance marking, student card generation, exam paper creation and JWT, enhancing system scalability and modularity. Implemented frontend features such as student attendance tracking, lecture scheduling, exam paper design, and interactive dashboards, improving usability and accessibility.

Employee Management System (EMS) – HCode Solutions

Technologies Used: NestJS, Next.js, TypeScript, Tailwind CSS

Developed both the frontend and backend of the Employee Management System (EMS), ensuring a seamless and efficient employee management experience. Implemented core functionalities, including employee task management, employee points system, documentation handling, and employee letter management, enhancing operational efficiency and automation. Collaborated with cross-functional teams to align development with business requirements, optimize system performance, and deliver a scalable and user-friendly solution.

MARNON – Clothing E-Commerce Platform

Technologies Used: NestJS, React, TypeScript, Tailwind CSS, Hero UI, ShadCN UI

Designed and developed a full-stack e-commerce platform, MARNON, for a modern online clothing store, delivering a seamless shopping experience for customers and powerful management tools for administrators. Implemented key features such as customer authentication with JWT, secure cart management using Redux Toolkit, and dynamic product browsing. Built a responsive and aesthetically pleasing UI using Tailwind CSS and ShadCN UI components. Developed a dedicated admin panel enabling product management, order tracking, and business summary analytics. Focused on scalability, performance, and user experience, ensuring the platform meets both customer and operational needs.

Bank Term Deposit Prediction System – Machine Learning & Cloud Deployment

Technologies Used: Python, Scikit-learn, Pandas, NumPy, AWS, Flask, CI/CD Pipeline

Developed a predictive analytics system using the Bank Marketing Dataset to determine whether clients would subscribe to term deposits. Implemented machine learning models including Support Vector Machine (SVM) and Logistic Regression, supported by comprehensive data preprocessing—handling missing values, encoding categorical features, and feature scaling for improved accuracy. Built an interactive Flask-based web interface allowing users to input client details and instantly receive deposit predictions. Deployed the end-to-end ML pipeline on AWS ECS, integrating a CI/CD workflow for automated testing and deployment. Focused on scalability, interpretability, and real-world usability through cloud-based model hosting.

PROFESSIONAL EXPERIENCE

H code solutions, Moratuwa - Intern software engineer

Sep 2024 - March 2025

- Contributing to both frontend and backend development, ensuring smooth integration.
- Collaborating with the team to meet project goals and follow best practices.
- Troubleshooting and optimizing code, ensuring high quality and efficient performance.
- Learning and adapting quickly, rapidly improving skills from a foundational level to an advanced understanding of the development process.

SKILLS

Front End - **React JS** | **Next JS** | **Angular** | **Tailwind CSS**

Back End - **SpringBoot** | **Nest JS** | **Flask**

Database - **MySQL** | **Mongo DB**

Cloud - **AWS** | **Docker**

Soft Skills - **Problem solving** | **Fast learner** | **Team work** | **Collaboration**

EDUCATION

Kingston University, UK

BSc (Hons) Computer Science

Sep 2025 - Sep 2026

Institute of Software Engineering (IJSE), Panadura

Graduate Diploma in Software Engineering

Aug 2022 - April 2025

REFERENCEC

Mrs. Harindi Supunsara

Associate Tech Lead - E.W Balasuriya Group of Companies.

(+94) 77 7140372 | supunsara.harindi@gmail.com
